About Me

Hello! I'm Daniel, a computer enthusiast with a passion for both hardware and software. I excel as a skilled Front-end/Back-end developer and have expertise in various open-source tools such as Linux, VS Code, LibreOffice, and Gimp, among others. Additionally, I dedicate a significant amount of my free time to ethical hacking.

My technical skills are complemented by valuable social abilities that allow me to communicate effectively with clients and colleagues, and also to lead teams collaboratively. I firmly believe in a strong work ethic and the ability to adapt to new challenges.

I am convinced that I can make a positive contribution in any environment. Thank you for considering my application, and I look forward to the opportunity to discuss my qualifications in more detail.

Address	Seville, Spain

Professional Skills

Web Technologies (Html, Css, Js, Php.)

PC Hardware

Programming (Java, Python, GDScript.)

Operating Systems

Office productivity (Gimp, Libre Office, Audacity.)

Team work

GNU Linux (Flatpak, APT, RPM, Arch.)

Communication

Work Experience

Connectivity Giesecke+Devrient

2022 - Present

In the Podgroup team, learning little things :D

Customer and Technical Hardware Support Computer Store

2020 - 2022

I worked face-to-face with customers at a computer and electronics store, and later transitioned to a technical role due to my great potential in fixing any electronic device, such as computers, screens,

phones, antennas, among others.

Ethical Hacking as a hobby

Since my youth, I've been passionate about hacking and pentesting, with a focus on Linux. I've developed strong technical skills to identify and fix vulnerabilities, and I've made positive contributions to digital security in various contexts. I remain enthusiastic about taking on new challenges and making a significant impact in the field of cybersecurity.

Developer as a hobby

I've worked on small indie projects with great performance. You can see part of my open-source work on my GitHub: [GitHub](#)

Education

Higher Degree private school

2022 - 2024

I am studying a Higher Degree in Multiplatform Application Development, another Higher Degree in Web Application Development, and specializing in cybersecurity.

English B2 Certificates University of Seville

The English language is very useful for communication and is a standard in the field of computing. In the future, I would like to invest more time in further improvement as my pronunciation is not very good.

Intermediate Degree + Courses Public Institute

2019 - 2021

Technician in microinformatics systems and networks + courses like AWS.

Science and Mathematics Public Institute

2013 - 2018

Secondary education in sciences, I have liked mathematics since I was young and have used them to optimize computers or program them.
